LOYALTY KILLED.

Nicholas, even if he succeeds in crushing this, will have to yield. He is a weak man, and conditions are all against the perpetuation of autocracy. Any victory the throne wins can only be a half victory, since the masses are no longer loyal. Either it will be a victory for the Czar which spells defeat,

or it will blaze up again.

* GAPON'S AMERICAN VISIT.

Russian Leader of Strikers Attended Y. M. C. A. Convention in Boston in 1901.

BOSTON, Jan. 23 .- The priest who figures in the St. Petersburg despatches as Father Gapon and who headed the procession of strikers as they marched toward the Neva Gate vesterday was in Boston in 1901 to attend the celebration of the fiftieth anniversary of the foundation of the Boston Young Men's Christian Association.

According to the Rev. J. R. Ross of the American board, Father Gapon's name at that time was Nicholas V. Vassilieff, and some of the newspapers here printed pictures of him over that name. He attended the reception at the State House and with the other two Russian delegates shook hands with Goy. Crane. As the trio turned away from the Governor they engaged in conversation with a Melrose man, a Russian by birth, but a fugitive from his native land for years on account of his radical political beliefs." In default of introduction the visitors asked the man's name.

"John Baker," he replied, and as if the name had been a Breath of poison the three Russians turned and made their way out of the building. That is what Mr. Baker himself told to a reporter to-day. The visiters recognized in the name the desigmation of a man out of favor with the Russian Government, and were in haste to get away from him. "But I sought out Father Gapon at his

hotel later," said Mr. Baker, "and for six hours I talked with him in private, telling him how they manage public affairs in This country, explaining that the name Governor is only a title and that the real Governors of the Commonwealth are the eftizens who make up its population, de scribing the police system, the system of free government and all the popular privileges enjoyed under it. He listened to me; he was interested, and I believe seed was sown then which has now borne fruit.

"The young priest, for he was then only \$4 or 35 years old, was intensely interested in all that I said and was able to verify the more important part of the matters I called to his attention. He seemed scarcely able to comprehend such wonderful liberty after his intimate knowledge of how matters are regulated in the land of the Czar."

"Was the organization he represented here the same as our Young Men's Christian Associations?"

"By a good stretch of the imagination it could be called the same. When the New York philanthropist, Anson Phelps Stokes, was in Russia several years ago he left perhaps \$75,000 for the establishment of a Young Men's Christian Association in St Petersburg. An association was established, a priest was placed in charge, and they do work somewhat similar to the work done in this country. But the association has no branches. It is like a little club." "Is Father Gapon a priest in regular

standing in Russia?' "No, he is more like what we know as mission priests, more like the members of the Order of St. John the Evangelist. He was originally a Socialist, and apparently his advanced views in this direction have given him a great hold with the people. He has been kept informed of the popular freedom enjoyed in America also." Mr. Baker gave the impression that Father Gapon's American ideas had done much to educate the thought of his followers in the last year or two. The speaker described Father Gapon as about 38 years old and said that his name was properly "Aga-

CHICAGO, Jan. 23 .- Prof. Paul Milyoukov of the University of Moscow, scholar, historian, political agitator and former exile and imperial prisoner, listened with interest to bulletins from St. Petersburg as he sat yesterday in his room at the home of R. Crane, where he is staying while delivering a series of lectures at the University of Chicago. Prof. Milyoukov learned to his cost of the attitude of the Russian Government toward liberal politicians when he was imprisoned years ago because of supposed pernicious influence on the youth of the empire.

"I told you so," he said quietly. "I said yet is as destructive as the bomb which | yesterday that to-day would bring blood-

ANDREW D. WHITE'S VIEW. Evils of the Old Russian System Are Now Intelerable.

ITHACA, N. Y., Jan. 23 .- Andrew D. White, former Ambassador to Russia and one of the best informed Americans on Russian affairs, to-day made the following statement in regard to the situation in St. Petersburg: "If the Czar is a weak man, as the present

Emperor is, he can do very little. A weak man cannot know anything about the Empire to speak of, because he is surrounded by Grand Dukes, women, &c., who tell him what they want him to believe.

"The main difficulty in the whole case is that the Emperor is supposed to do all the thinking for 140,000,000 of people scattered over the largest territory possessed by any Government in the world, with all sorts of different races, religions and ideas, and this no man can do, and least of all in a time like this.

"The simple fact is that the evils of the old system have now become absolutely intolerable. And when you add to that fact the sending off of immense numbers of the best young men in the country to an utterly useless and wicked war, and the pressure of taxation which grinds the people to the dust, you have a situation which none but the very strongest rulers in all human history can cope with. The Czar has no strength hopelessly unfit to grapple with the situa-

but the condition of things was by no means so bad as it is at present. And that Emperor was a very much stronger man than the present ruler. He simply shot down the insurgents in one of the great squares of the city, ordered a number of revolutionists to be hanged, sent the more moderate reformers to Siberia and so stopped the whole difficulty. Not unlikely the advisers of the present Emperor will try to do the same thing by shooting down the insurgents. like peace for some time to come. Dr. Charles Schidlowsky, who came to this country a few months ago with Mme. Breshkovsky, the revolutionist leader, has given nine lectures in the hall. The tenth was to have come on Thursday. In view of events in Russia, however, it was decided to hold the meeting last night and talk about the uprising in St. Petersburg.

When Capt. O'Connor of the Delancey street police station beard about the meet ing he went to the hall with fifty policemen. He was quickly persuaded, however, that it was to be a peaceable affair, and sent back all the men except a roundsman and

SPEECHES TO THE ALBANIANS

JUDGE HERRICK THINKS HIS RUN NOT ALL LABOR LOST.

Educational Campaign, He Says, and He Learned Lots of Things-Experience us a "Come-on"-Mr. Chas. A. Towne on Mr. Hill's "Strong Right Arm." Transplanted Albanians, who have banded themselves together to keep alive the

night. Two hundred and fifty ex-hill climbers were present. Supreme Court Justice Edward E. McCall, president of the Albany Society of New York, was the toastmaster, and with him at

the table of honor were: Rear Admiral Coghlan, ex-Justice D-Cady Herrick, Congressman Charles A. Towne, John J. McCall, Andrew Freedman, Louis Stearn, William H. McElroy, George H. Daniels, Dudley Olcott, Daniel Delehanty and Justice James Fitzgerald. David B. Hill was also to have been a guest but i seems that he got his dates mixed and was unable to be present. In presenting the ex-Senator's regrets Justice Fitzgerald said that Mr. Hill thought that the dinner was to be on the evening of the 25th and had made another engagement for last night. Mr. Hill was to have spoken to the toast, "A few egg from Wolfert's Roost."

In his speech Justice Fitzgerald said that he overcame the misfortune of not Albany, and still more on their great good sense in getting out.

When Admiral Coghlan got up to speak there were roars of applause and shouts of "Hoch der Kaiser!" The Admiral bowed and smiled and bowed again. When he could make himself heard, he said: "The training of us seafaring men is all

against speechmaking and from what ha gone before I judge that we had bette keep our mouths snut." There was more teep our mouths snut." There was more applause at this and then the Admiral said hat the elements that went to make up n orator were a vivid imagination, a glit tongue and a total disregard for facts.

The Hon. Charles A Towne said that the events of the last few days in Russia had recalled to his mind a remark that he once heard from Judge Simeon E. Baldwin of the Supreme Court of Connecticut.

Judge Baldwin said:

"There are exhibited in the Governments of the world two examples of absolutism: the autocracy of Russia and the President of the United States."

of the United States.

"The last few hours," commented Mr.
Towne, "have been sufficient to differentiate the absolutism of Russia and of the
United States. The former was oppresentiate the absolutism of Russia and of the United States. The former was oppres-sion, pure and simple; the latter great power was delegated by a people who have never relinquished the right to gov-ern their own affairs. To-night that great autocracy is trembling under the touch of straying men. St. Petersburg is an ex-Says He Has Found Out That He Is Neither

Judge Herrick finished with some humor, ous remarks about Jerome's efforts with the New York "lid." His speech was received with tremendous applause, and the diners arose to give him three cheers as the finished.
